**Effect of closing an account** - If you close your account before interest is credited, you will not receive the accrued interest.

**Minimum balance to open the account** - You must deposit \$100.00 to open this account.

**Balance Computation Method**-This is an interest-bearing account. We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day. The daily balance that we use when calculating interest is the collected balance. That means we only include those funds for which we have actually received payment when we determine the balance of which interest is paid.

**Accrual of interest on noncash deposits** - Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items (for example, checks).

**Fees** - A service charge of \$14.95 will be assessed for each month after the first monthly statement cycle. No NSF Item Paid or Returned Check Fee. (Returned checks may be subject to the payee/merchant's fee.)
